MAKE YOUR HOME
MORE ATTRACTIVE

Why the Trees and Plants from Glen Brothers, Inc. Are of Special Importance to You

1. **THEY ARE DEPENDABLE.** Every possible care is taken to have the stock that leaves this Nursery true to name and description.
2. **THEY ARE HEALTHY.** We take extraordinary precautions to keep all our trees and plants entirely free from disease.
3. **THEY ARE HARDY.** We are located in the cold North; the stock we grow becomes acclimated to severe winter temperatures of sometimes 10 to 15 degrees below zero. It will withstand the same temperatures for you.
4. **THEY ARE VIGOROUS.** Ample space has been given each tree or plant in the Nursery; where it has been necessary, we have pruned; we have fertilized; we have sprayed—to make our stock vigorous and sturdy.
5. **THEY ARE PRODUCTIVE.** Whether planted for nuts, fruit, flowers, or ornamental foliage, the trees and plants we send out are prepared to do the best possible. And, frequently they surpass what we considered the limit of possibility for them.

Important Information

The Order Blank which accompanies this Catalogue is for the convenience of customers. It will greatly facilitate filling orders.

Always Give Full Address—name, post office, county, and state. It is very important that this information be plainly written.

Shipping Instructions. Give your nearest express office and railway station, or stage route, and the name of the transportation company. State how you wish us to ship—by freight or express; also designate the route; otherwise we use our own discretion in forwarding.

Prices in this catalogue are f. o. b. Rochester, N. Y. There are no charges for packing or boxing.

No Orders for Less Than \$1 Accepted. Because it costs just as much to pack and prepare small orders as it does large ones, we cannot afford to fill orders amounting to less than \$1. Ordering all your needed stock at one time saves transportation charges, because the heavier the box or bale, the less it costs per pound for freight or express.

Terms Cash on or before delivery to transportation companies. **Accounts.** When requested, we will open accounts with persons or firms of approved credit, or with those who offer satisfactory references. **Express C. O. D. Orders** will be filled, provided one-half of the amount is sent with the order.

Our Responsibility. We refer you to any bank or banker in Rochester, N. Y. Also Dun's and Bradstreet's Commercial Agencies.

Guaranty. It is obviously to our advantage to have all stock that leaves our Nursery true to name and to grow to the entire satisfaction of the purchaser. Every effort is put forth to have these conditions a part of every sale. But conditions of soil, climate, care, are sometimes such that it is difficult for any tree or plant to grow; and, because there are so many things that influence the life of a tree or plant after it leaves our Nursery, we do not give any warranty as to description, quality, productiveness or for failure of plants to grow. If it is proved that stock is not true to name, by error on our part, we will replace such plants immediately; and it is agreed between the purchaser and ourselves that we shall not be held responsible for an amount greater than the purchase price of the stock.

Errors. If mistakes are made in filling orders, we will gladly rectify them if notified within ten days after receipt of stock.

Care of Stock When Received. Soak the roots of the trees and plants with water, and either place them in a cellar and keep damp or bury them in a trench until the holes are ready for their transplanting.

Stock Specially Selected by customers at the Nurseries will be charged according to value of the trees chosen, irrespective of catalog list price.

Our Collection Offers

We call to our customers' special attention the money-saving, time-saving, satisfaction-giving importance of our collection offers scattered throughout these pages. They deserve special consideration.

Price for These Ten Only \$4.00

Why pay more for a four months' feast of roses?

TALISMAN—Probably the most popular rose in America today. A magnificent multi-colored rose of golden apricot-yellow, blood orange, deep pink and old gold. The most gorgeous assemblage of colors in one flower ever presented in a rose. Very fragrant and blooms all summer.

MRS. P. S. DUPONT—A great prize winning rose. Clear yellow with burnt orange heart. Long lasting and blooms all summer and fall. A great beauty.

MME. EDOUARD HERRIOT—Winner of the \$50,000 prize offered by the London Daily Mail. Coral buds and shaded yellow. Copper orange and tinted yellow and scarlet. Wouldn't you just love to have one of these beauties blooming in your garden all summer? Beautiful bud and exquisite colorings.

PRESIDENT HERBERT HOOVER—A gorgeous multi-colored rose that became popular over night, enfolding its broad thick petals unhurriedly from the beautiful pointed bud. Color vivid-cerise pink softly flamed with yellow, orange and scarlet and the bush is full of those beautiful blooms all summer.

MRS. CALVIN COOLIDGE—A gorgeous rose with long pointed bud. Flowers vivid reddish orange and coppery apricot shadings. Flowers continuously through the summer. We regard this rose as one of the most beautiful decorative bedding roses grown.

LOS ANGELES—What a magnificent fragrant full bodied rose and beautiful in the bud. Flame pink, shaded gold. A delightful combination, interesting, fragrant and blooms all summer.

MME BUTTERFLY—Most charming rose and one of the most admired, presenting a symphony of cream-pink, apricot and gold. The buds are rich Indian red, yellow at base. A rose anyone could be proud of and blooms from June until frost.

TEMPLAR—Brilliant fiery red tipped crimson. Buds are long pointing into large semi-double long lasting flowers. The bush being rarely without a good show of these intense crimson flowers throughout the summer. This rose should be in every rose garden.

BRIARCLIFF—Extra hardy and vigorous. One of the best all around garden roses. Winner of many prizes. This exquisite rose of vivid pink color and slightly fragrant, blooms continuously throughout the summer and we would not regard this collection as complete without it.

HOOSIER BEAUTY—Brilliant fiery red. Flowers are exquisite shape borne on long stems. A good grower that starts blooming in June and continues until frost. Extremely attractive in the bud.

strictly nursery grown and are far superior in every respect both in color, form and root system to trees collected in the woods that are frequently offered by nurserymen. Every tree we offer is a nursery grown tree.

Flowering Dogwoods
RED AND WHITE

Bloom in May Before the Leaves
Appear

FOR PLANTING THIS SPRING

Small trees of great hardiness and floral beauty thriving in most any soil or exposure. The Red Flowering Dogwood especially is recommended as one of the showiest of Flowering Trees. Some of the most enchanting results in ornamental plantings are attained by the liberal use of these valuable subjects. Growing to a height of 15 to 25 feet they are a mass of bloom in May before the leaves appear. Ours are specimen plants being

WHITE FLOWERING DOGWOOD (Cornus Florida)

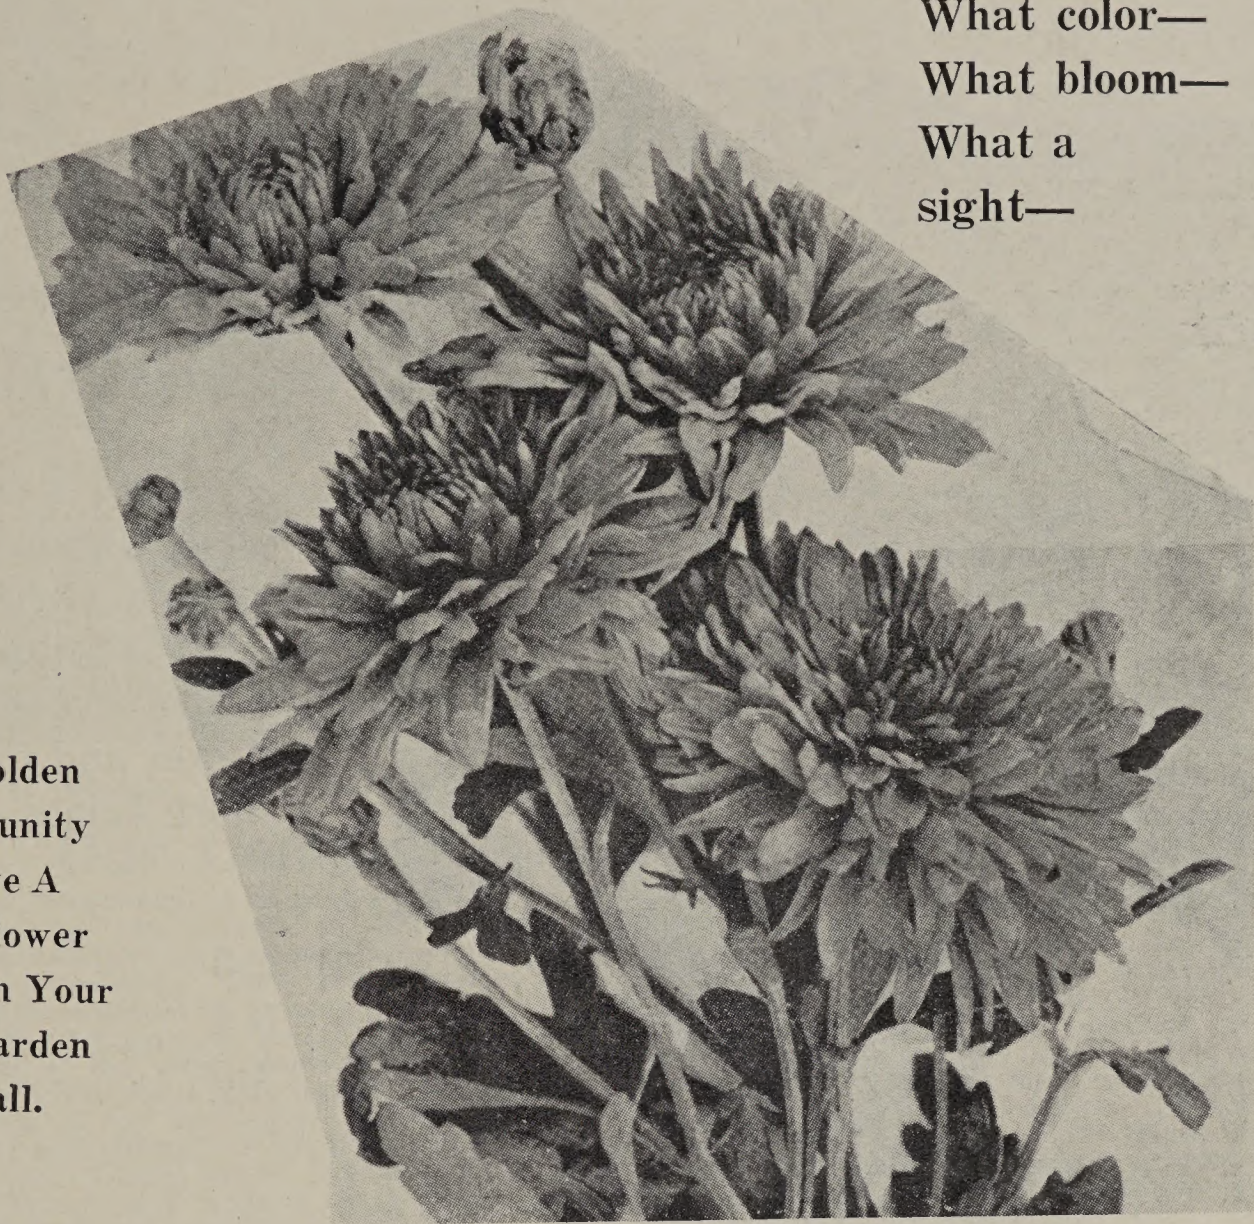

One of the most beautiful Flowering Trees. A small delightful tree with upright or spreading branches. Leaves oval bright green turning scarlet in foliage, changing to gorgeous red in autumn. Fruit following the blossoms is a brilliant red in the fall and hangs well into the winter. Birds are especially fond of it. One of the finest Flowering Trees for the lawn and specially good in a shady location where it does well.

Size 4-5 ft.	\$1.50 Each	\$12.50 per 10
Size 5-6 ft.	2.50 Each	22.50 per 10

RED FLOWERING DOGWOOD (Cornus Florida Rubra)

A striking beautiful form especially when planted in contrast with the White Flowering. The blossoms are rose-pink suffused with bright red and are extremely beautiful.

Size 3-4 ft.	\$2.25 Each	\$20.00 per 10
Size 4-5 ft.	3.75 Each	32.50 per 10

Our Complete Landscape Service

Our Landscape Department is one of the most efficiently operated by any nursery in America. Our Landscape Architects are thoroughly competent with years of experience. They know nursery stock and know how it should be arranged. Creating pictures with evergreens, trees, flowering shrubs and plants is the only adequate description which can be given the highly developed and experienced service of our Landscape Architects. In the creation of such effects we not only aim to develop that peculiar charm which will best express a natural beauty and make it harmonious with the house, the grounds and the surroundings but especially to create those beautiful landscape pictures which will fascinate throughout the entire year. How well we accomplish our purpose is illustrated by the accompanying pictures of just a few of the attractive homes that we have landscaped, having supplied the plans, plants and planting. In many instances we have assisted in locating the walks and drive-ways, designed walls, etc. We offer no stereotype plans, each problem must express your own desires and your own individuality.

Landscape plans are prepared complete in every detail. While builders of new homes are conscious of the need to engage architects in the development of beautiful designs, it is unfortunate to observe the very large number of instances where the possibilities of the exterior setting of an otherwise designed and attractive house have been entirely ignored or the grounds have been planted in a "hit or miss" manner. To individuals possessing good taste the sight of a charming English cottage set in a wealth of crimson cannas edged with equal crimson scarlet sage must not only be ludicrous but painful as well. To make possible the preparation of a landscape design which would catch the proper spirit of the architectural style of the house and translate it, together with its surroundings into a charming landscape composition was the very definite purpose given to the selection and organization of the personnel behind the Glen Brothers Inc. Landscape Department.

Send for **FREE LANDSCAPE CIRCULAR** explaining this service, with pictures of home grounds we have developed.

Residence Henry Kimmel, Esq., Rochester, N. Y., Glen Brothers, Inc., Landscape Architects

Do You Want Quick Shade - - -
Do You Want Immediate Effect?

The Chinese Elm Will Give You Both If You Plant Glen's North China Strain Chinese Elm. Don't Wait. Plant This Season. Order Now.

Who wants to wait for 10 years for shade that may be had in 5? Our Chinese Elm not only gives you quick shade but beauty as well and at small cost. Just think of it, a tree as hardy as an oak, as graceful as a Cut Leaf Birch and faster growing than the Carolina Poplar with none of the undesirable root characteristics of the Poplar. It is strictly an Elm but the fastest growing tree we have ever seen. It grows rapidly even in poor soil. The Chinese Elm is here to stay. It is sweeping this country by storm. We receive thousands of letters from our customers who have planted our North China Strain of Chinese Elm but only have room to reprint a few as follows:

What Our Customers Write Us

From C. D. Madden, Clarksville, Ohio. "About 4 years ago we bought a 6 ft. Chinese Elm from you which has now reached the height of almost 30 feet. Everyone comments on its beauty and how fast it has grown."

From W. E. Straup, Circulation Mgr., The Farmers Guide, Huntington, Ind. "We already have 20 of your Chinese Elm Trees on our place and like them very much. They are all you claim for them."

From Mrs. C. Frank Dolman, 1724 Beaver St., Parkersburg, W. Va. "We bought 2 Chinese Elms from your nursery in Spring, 1932. They are now large, fine shade trees and admired by everyone. They are a beautiful shape."

From Mrs. George R. Taggart, 613 Maryland Ave., Adams, Pa. "My Chinese Elm is growing beautifully and is a most graceful and beautiful shade tree."

From H. R. Clark, Adrian State Bank Bldg., Adrian, Mich. "I want to take this occasion to tell you the Chinese Elm which I purchased from you 4 or 5 years ago has grown from a tree 4 to 5 ft. in height to a large tree. I will not dare to give you the size but it is a wonderful tree and already affords a nice amount of shade."

From E. C. Holt, 702 North Carolina Bank and Trust Bldg., Burlington, N. C. "Please send me 10 Chinese Elms, 5-6 ft. Please give me good selection as I want most of these for my neighbors. We are amazed at the growth of the one I bought from you several years ago."

From Mr. George Simmons, 70 Mount Pleasant Ave., Troy, N. Y. "I have one of your Chinese Elms which I purchased about 3 years ago. It has grown splendidly and makes a great deal of shade. The tree is now about 28 ft. tall."

Prices and Sizes	Size	Each	Per 10	Per 100

MAGNOLIAS

MAGNOLIAS ARE A BEAUTIFUL THING ON THE LAWN. NO GROUP OF TREES CONTAINS SUCH A WEALTH OF FLORAL TREASURES.

Every species is characterized by large and showy flowers. More conspicuous and effective trees for the lawn cannot be found anywhere. They grow almost anywhere and in any soil, and are perhaps the showiest when planted in full sun. Magnolias have been expensive and we are fortunate in being able to offer such two outstanding varieties as ACUMINATA and TRIPETELA for almost the price of one tree. As long as our stock lasts we will accept your order for one each of the following in nursery grown, well developed branched trees 4 to 6 feet tall for the

SPECIAL PRICE OF \$4.00.

MAGNOLIA ACUMINATA.

Leaves oblong. Bright green turning yellow in autumn, flowers expanding in May or June two to three inches long with upright petals, clear white. Fruit rosy-red. The seed scarlet. Most valuable hardy shade tree.

MAGNOLIA TRIPETELA.

Leaves 10 to 20 inches long, 6 to 8 inches wide. Bright green. Flowers creamy white 8 to 10 inches across, expanding in late spring. Fruit rose color 3 to 4 inches long. Very attractive.

Fragrant blooms in early Spring.

Peonies

Among the most hardy, showy, and easily grown of all garden flowers; the plants are practically immune from the attacks of insects or diseases; the flowers are the largest of all double-flowering perennials, and each succeeding year adds to the vigor of the plant and to the abundance and perfection of the blooms. The varieties that we name below we have selected with great care as being excellent specimens of the types and colors they represent.

Showy on account of size of bloom and delightful colors.

Agida. Violet-rose; early blooming, free-flowering, semi-double type of medium size.
Berlioz. Rosy magenta; large, compact, rose type; strong grower; free bloomer.
Canari. Yellowish; globular bomb type of medium size; fragrant; late.
Charlemagne. Lilac with blush center; large, rose type; fragrant; late.
Delachei. Rosy magenta; large, rose type; very fine bloomer; late. Extra-fine variety.
Duc de Wellington. White with sulphur center; large, bomb type; very free bloomer; very fragrant; late.
Duchesse de Nemours. Pure white; medium-sized, crown type; fragrant; two days earlier than Festiva Maxima.
Edulis Superba. Bright mauve-pink; large, rather flat, crown type; strong, upright grower, free bloomer; fragrant; early.
Festiva Maxima. Pure white; flecked with carmine; very large, rose type; free-flowering; fragrant; medium early.
L'Eclatante. Brilliant red; very large bomb type; strong growing; midseason.

L'Indispensable. Lilac-white, changing to violet-rose; large, bomb type; free-blooming; medium early.

Louis Van Houtte. Dark red; medium-sized, semi-double type; fragrant; late.

Marechal MacMahon. Rich, dark red; large, bomb type; a fine flower of rare beauty.

Mme. Calot. Pale hydrangea-pink, center shaded darker; large, rose type, free flowering; fragrant; early. Very good.

Mme. de Verneville. Pure white, center blushed; very large and full, bomb type; fragrant; early.

Queen Victoria. Milk-white guards tinted flesh, the center creamy white with crimson spots; medium-sized bomb type; free blooming; fragrant, midseason.

Rubens. Very dark crimson; large, semi-double type; fragrant; early. Extra-fine variety.

Rubra Triumphans. Dark crimson; large, semi-double type; free-flowering; fragrant; early; midseason.

President Roosevelt. Semi-rose type; color deep, rich, brilliant red; mid-season; fine.

Price all varieties of Peonies: 50c each; \$4.50 per 10; \$35.00 per 100

SUMMER . . . BEAUTIFUL . . . WINTER French Pussy Willows The Talk of the Town

**THE ONLY OUTDOOR SHRUB GROWN
FROM WHICH YOU CAN CUT
BOUQUETS DURING THE
WINTER MONTHS**

A select and improved new type of Pussy Willow perfectly hardy anywhere in the United States.

BUDS AND BLOOMS VERY LARGE

The buds or catkins are from one to two inches long after they come out in bloom and make a very dainty yellowish pink and silvery bouquet.

FINEST WINTER BOUQUETS

The branches can be cut in December, January or February placed indoors in a vase of water and they will at once burst into bloom.

THEY MAKE FINE TALL HEDGES OR SCREENS

These plants will fit in any landscape planting and should be planted on home grounds everywhere. They can be used as a background like any tall shrub such as the Lilac or Snowball. They can be used as tall hedges or screens and should be planted about four feet apart for this purpose. Planted alone, the branches cut each winter, they make a beautiful round shrub an ornament to any home grounds.

VERY LARGE BUDS

**THE MOST INTERESTING PLANT FOR
THE HOME GROUNDS**

Price: French Pussy Willow Plants, Size 3
to 4 Feet, 75c Each; \$6.50 per 10

1/3 actual size.

FRUIT DEPARTMENT

APPLE TREES

Growing the Apple is a profitable commercial proposition, holding out to planters the possibility of an income from this source about four times as great as could be derived from a similar acreage devoted to ordinary farm crops. Areas planted to Apple trees may be intercropped with grains or small-fruits while the trees are coming to bearing age, so that it is possible to have some income from such a plantation each year. The varieties we offer have been selected for their sterling worth, productiveness, disease-resistance, flavor, time of ripening, and for other special reasons mentioned in the various descriptions.

The home garden that has the necessary space available is not complete without one or more Apple trees. The healthfulness of this fruit is proverbial, and surely it is more pleasurable to buy an Apple tree than it is to pay a doctor's bill.

Set 30 feet apart in rows 30 feet apart.

PEAR TREES

Excellent fruit for eating fresh or for canning purposes. Varieties are now available that make possible Pears in excellent eating condition from August until early spring. Particularly responsive to good cultivation and care, the Pear proves a profitable crop when so favored. It is indispensable in the home-garden. The fruit should be gathered ten days to two weeks before fully ripe and kept in a dark place until matured. When the trees are heavily laden, the fruit should be thinned.

Luscious Pears for dessert or anytime.

—Varieties—

HYSLOP. Deep crimson.
TRANSCENDENT. Yellow striped with red.
WHITNEY. Green splashed with crimson.

DOLGO CRAB (New)

Red, a rich red-red all over. Dolgo jells perfectly. It is excellent for canning. Bears early and abundantly. Extremely hardy. Apple trees are commonly planted back in the garden or orchard. You can and should put Dolgo on the lawn as it is beautiful as an ornamental, giving a happy combination of splendid qualities in fruit with a shapely tree, beautiful in flowers and in fruit. The fiery red clusters are a handsome sight.

ACME. Yellow with red cheek.		
HARRIS. Yellow with red cheek.		
MOORPARK. Orange with orange-red cheek.		

QUINCE TREES

The Quince is highly valued for preserves, marmalades, jellies, and for flavoring purposes, and is worthy of much more extensive planting. Thrives in warm, fertile soil, and the quality of the fruit improves in proportion as its cultural requirements are met.

	Each	Per 10
2 YEAR OLD TREES 3-5 ft tall (fresh dug).	1.25	10.00
ORANGE. Brilliant golden yellow.		
REA'S MAMMOTH. Bright yellow.		

CHERRY TREES

A money-making crop for the progressive farmer, as the trees require but little attention, are thrifty, vigorous, and prolific bearers. There are two principal classes of Cherries: (1) Hearts and Bigarreaus and (2) Dukes and Morellos. The former are strong and vigorous growers, making large, open, spreading heads; their fruit is large, heart-shaped, meaty and sweet. The Dukes and Morellos do not attain so large a size, and the fruit is usually sour.

SCHMIDT. Deep crimson-black.
SENECA. Black.
TARTARIAN. Black.

PEACH TREES

With the introduction of hardy varieties and the adaptation of cultural requirements to local conditions the Peach has gradually extended its range throughout the United States and Canada, the United States alone, in 1926, producing over 64,000,000 bushels of this fruit. The varieties in the following list comprise what we believe to be the best in Peaches. They furnish a succession for about two months, commencing the early part of August. The trees are all shipped with one-year tops and two-year roots. The size will vary according to the season and variety.

Set 20 ft. apart in rows 20 ft. apart.

5-6'	1.00	9.00	75.00

Early varieties

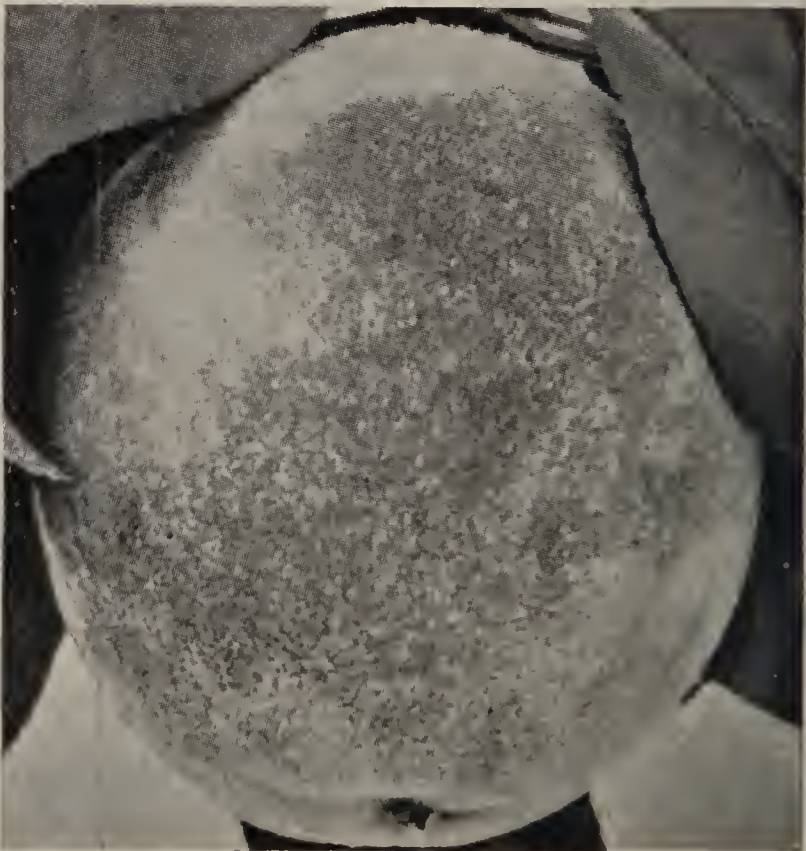

BELLE OF GEORGIA. Creamy white. Crimson cheek.
CARMAN. White.
EARLY CRAWFORD. Golden yellow. blushed with red.
GOLDEN JUBILEE. A choice recent introduction by the New Jersey Experiment Station. Tree habits and fruit resemble Elberta; but fruit ripens a few days before Carman. The skin is yellow with red blush; flesh golden yellow, juicy, tender, sweet, and freestone.
HALE-HAVEN. A large new yellow freestone; developed at Michigan Experiment Station, by crossing the two popular varieties, J. H. Hale and South Haven. Its high color even before complete ripening, gives it great market value because of the advantage of premature picking, packing, and shipping without loss. September 1st.
ROCHESTER. Orange-yellow and deep dark red.

Mid-season varieties

CHAMPION. Creamy white splashed with crimson.
CROSBY. Orange-yellow and dull red.
FITZGERALD. Golden yellow-red blush.
J. H. HALE. Rich golden-yellow carmine cheek.

Late varieties

ELBERTA. Orange-yellow overspread with red.
LATE CRAWFORD. Yellow, blushed with red.

Rochester Peach.

Glenwood Nurseries' Grape Vines

GRAPES

With its capacity for early bearing, the Grape combines such desirable qualities as hardiness, rapid growth, generous shade, and abundant crops. With the exercise of a little foresight, it may be made to serve a distinct purpose in an ornamental planting scheme—over a trellis, along a wall, or trained to cover a pergola.

	Each	Per 10	Per 100
FINE TWO YEAR OLD PLANTS.....	.25	2.25	20.00

BLACK GRAPES

- CAMPBELL'S EARLY.** Bunches thick. Large round berries. Sweet profuse bearer. Hardy. Very early.
- CONCORD.** Bunches large and compact. Berries large; Pulp juicy and sweet; Vine very hardy and equally productive.
- IVES.** Bunch extremely large, compact, handsome. Berry large, tender, juicy, rich, sweet without pulp. Hardy.
- McPIKE.** Bunches large and compact. Pulp tender and juicy.
- MOORE.** Bunches large, berries large, round, black with a heavy blue bloom. Vine very hardy withstanding temperatures of 20 degrees below zero. Maturing 20 days before Concord.
- WORDEN.** Bunches large and handsome. Vine healthy and hardy. A seedling of Concord, ripening a few days earlier.

RED GRAPES

- BRIGHTON.** Bunches large, compact. Berries rich wine-red. Pulp tender, almost seedless. A superior variety.
- CATAWBA.** Bunches large; berries large of a coppery red color. Pulp juicy, sweet. Very productive. An excellent table and wine grape.

- CATAWBA—CONCORD.** Berry sparkling light red; pulp tender, juicy, sweet.
- DELAWARE.** Bunches small, compact, berries rather small, round, light red, pulp juicy. Profuse bearer.
- JEFFERSON.** Bunches large; berries bright red, medium to large. Fine market grape.
- LUCILE.** Bunches very large and compact. Berries large, pulp sweet. Vine hardy, healthy and bears tremendous crops.

WHITE GRAPES

- DIAMOND.** Bunches large, handsome, compact. Berries large, delicate greenish white with rich yellow tinge when fully ripe. Pulp tender with few seeds. Ripens a few days before Concord.
- GREEN MOUNTAIN.** Bunches long, compact; berries oval, greenish white. Pulp tender, juicy, sweet and rich. Very productive.
- NIAGARA.** Bunches large, uniform and compact. Pulp melting, sweet. Vine strong grower and very hardy. An excellent grape for either home or market garden.

*Indian Summer Raspberry.***RASPBERRIES**

**LARGEST SIZE PLANTS—
GUARANTEED 2 YEARS OLD**

Prices except as otherwise noted:

**\$1.00 per 10; \$7.50 per 100;
\$60.00 per 1000**

Plant 4 ft. x 4 ft.

Varieties

CHIEF. Bright red, flesh firm, juicy, medium sweet. Quality high.

COLUMBIAN. Dark red, rich, juicy, of exceptional quality.

CUMBERLAND. Large black raspberry. Berries glossy, firm. Perfectly hardy. Very productive.

CUTHBERT. Deep rich crimson. Excellent quality. Vigorous.

HERBERT. Extraordinarily large, oblong, rich and handsome. Very sweet and juicy.

HONEYSWEET. A distinctive black raspberry. Sweet and delicious. Fruits in July.

LATHAM. Yields twice as much as most other red raspberries. It is absolutely hardy. Due to its rich brilliant red color it sells readily on market stands.

NEWBURGH. A quite new variety which is proving its worth, and becoming popular with the growers. Newburgh is a vigorous grower, hardy and productive. Its berries are large and do not "crumble"; of attractive high color; in quality somewhat superior to Latham which it precedes by a few days. Excellent keeper and shipper.

Price \$1.25 per 10; \$10.00 per 100

SODUS. A new purple raspberry finding much favor in several states. The fruit is extra large, of medium purple color, firm, sprightly and of excellent quality, ripening shortly after Latham. Sodus is more resistant to drought than is Columbian and seems practically immune to mosaic disease. The plants are vigorous, very productive and hardy.

Price \$1.50 per 10; \$12.50 per 100

INDIAN SUMMER. (New). Best of the so-called "everbearing" raspberries, first popularized by St. Regis. This variety grows sturdy canes above medium height, which bear abundant crops; first in June about the time of Chief; then again in September, with the bulkiest yield in October, clear up to the first frosts. The medium red berries are large, slightly irregular, inclined to crumble. Soft and luscious to the taste. Not sufficiently firm for far shipping, but very good for local market, and for vastly enjoyable home-garden use.

Prices, 2 year plants:

\$2.25 per 10; \$20.00 per 100

CURRANTS (2 Year Plants)

(Plant 4 ft. apart in rows 4 ft. apart.)

Price: \$2.50 per 10; \$22.50 per 100

CHERRY. Very large bright red fruit with thin skins.

FAY. Uniform, easily picked, exceedingly productive.

PERFECTION. Very large; superior bearer, less acid and of better quality than any other large currant in cultivation.

RED LAKE. An outstanding new introduction from Minnesota. The berries are extra large and the bunches long and well filled to the tip. The exceptionally long stems make them easy to pick. The bushes are thrifty and extremely productive. It's easy to grow and you will enjoy picking the long bunches. Ripens early midseason, but holds on over a long period so it can be used or marketed as desired.

WILDER. Bunch and berries very large; moderate acidity. An immense yielder, always dependable.

GOOSEBERRIES (2 Year Plants)

Plant 4 ft. apart in rows 3 ft. apart.)

Price: \$2.50 per 10; \$22.50 per 100

DOWNING. Large, pale green, of splendid quality for both cooking and table use; bush vigorous and usually free from mildew.

HOUGHTON. Small to medium; roundish, oval, pale red, sweet, tender, very good.

JOSSELYN. Large sized, smooth, prolific and hardy, red berries of best quality. The freest from mildew.

BLACKBERRIES

LARGEST SIZE PLANTS—
GUARANTEED 2 YEARS OLD
\$1 per 10; \$7.50 per 100; \$60 per 1000
Plant 5 ft x 5 ft.

- BLOWERS. Extremely large, averaging 1 inch in diameter and 1¼-1½ inches long, exceptionally sweet.
- EARLY HARVEST. Berries rather small. Very juicy, sweet and of excellent quality.
- MERSEREAU. Extra large; brilliant black. Rich and melting without core.
- SNYDER. Medium size; sweet and melting with no hard, sour core. Extremely hardy and enormously productive.

STRAWBERRIES

Extra Fine Field Grown Plants
\$1.50 per 100 \$12.50 per 1000
(Plant 1 ft. apart in rows 3 ft. apart)

- BEACON. The best early variety in existence. Very productive. Large, glossy, red, firm and refreshing.
- BLISS. Berry of supreme quality. Fragrant, high flavored; glossy, red, large, very productive.
- BOUQUET. Big plant, berry and crop. Glossy, red, firm, delicious. Ships long distances.
- GLEN MARY. Large, sometimes flattened; light red, sweet and rich, very productive.
- JUMBO. A mammoth plant and a whale of a berry. It's a good one.
- MARSHALL. Large, handsome, dark crimson; flesh firm, rich, moderately productive.
- McKINLEY. Large, handsome; of excellent quality. Productive.
- SUNSET. Strong growing plants. Berries deep red. Excellent either fresh or cooked.
- TABLE QUEEN. A big producer of large, bright red berries, delicious and pleasing. A good canner.

THE MASTODON EVERBEARING
STRAWBERRY

The giant Mastodon and king of all everbearing Strawberries. Harvest a crop three months after setting the plants and continue to pick the berries until frost comes.

Strong Field Grown Plants:
\$2.50 per 100; \$20.00 per 1000

CULTIVATED BLUEBERRY PLANTS

The largest Blueberries for your table. Plump, tender, practically seedless and the size of grapes and far superior to the wild blueberry in flavor. With sugar and cream or for pies and preserves they are delicious, nor can the ornamental value

of these cultivated blueberries be overlooked. During the summer the foliage is deep rich satiny green and against this background hang clusters of berries royal in their magnificence. In the autumn the leaves turn to a beautiful crimson-bronze, with red branches during the winter. We offer the following varieties:

- RUBEL. Berries are fine blue color and ready to pick the second week in July.
- CABOT. Large berries. Have a delicious sub-acid flavor.
- PIONEER. Produce heavy crops of berries of medium blue color and fine flavor.

PRICE FOR LARGE PLANTS 15 to 18 INCHES, SHIPPED WITH LARGE BALL OF SOIL BURLAPPED, CRATED AND PRUNED, READY TO PLANT AT

\$2.50 Each \$22.50 per 10
\$200.00 per 100

Plants of this size should bear fruit the second summer.

RHUBARB (Pie Plant)

	Each	Per 10	Per 100
2 Yr. roots.....	.25	2.00	15.00

- BURBANK GIANT. Extra large early, tender.
- EARLY SCARLET. Rather small, early and good.
- MYATT'S LINNAEUS. Early, tender with a mild, sub-acid flavor.

ASPARAGUS

	100	1000
Choice, two year, crowns.....	\$2.00	\$17.50

MARY WASHINGTON ASPARAGUS is the first result of a blister proof campaign for the eradication of asparagus rust and is as far as possible an extremely resistant, vigorous, and high yielding strain of giant asparagus. The plants represented in Pedigreed of the last three generations are the best found in a ten-year search among millions of plants tested.

By best, we means the ones that have produced offspring uniform, rust resistant, high yielding, large size, unbranched shoots, with good top buds of rapid growth which indicates tenderness.

CONOVER'S COLOSSAL. Large size, remarkably tender and high flavored, vigorous grower, sending up from fifteen to twenty sprouts each year, from one to two inches in diameter, color deep green and crown very close. Can be cut one year sooner than the other varieties.

PALMETTO. An extra early variety, tender and of good flavor, productive.

Hardy Nut Trees

AMERICAN BLACK WALNUT

For roadside planting or reforesting, we have these valuable trees in quantity at the following prices:

	Each	Per 10
5-6 ft. ...	\$2.00	\$18.50
6-8 ft. ...	2.50	22.50

BUTTERNUT

One of the finest of native trees.

5-6 ft. ...	2.00	18.50
6-8 ft. ...	2.50	22.50

ENGLISH WALNUT (Juglans Regia)

We are growing English Walnut that will stand 15 degrees below zero without injury. It is reasonable to expect these acclimated trees could survive wherever peaches succeed. Our trees are grown from nuts produced from seed borne by trees grown in this vicinity.

2-3 ft. ...	2.00	18.50
3-4 ft. ...	2.50	22.50
4-5 ft. ...	3.50	30.00

FILBERT

Moderately rich well-drained soil is required. The nuts should not be gathered until ripe which con-

dition is indicated by a browning of the husk.

	Each	Per 10
Kentish Cob		
Large oblong nuts of fine rich flavor.		
3-4 ft. ...	\$1.75	\$16.50
4-5 ft. ...	2.00	18.50

Large Globe		
Nuts short and broad. A very fine variety.		
3-4 ft. ...	1.75	16.50
4-5 ft. ...	2.00	18.50

Italian Red		
Nuts large of fine brown color. Oblong. Shell thin.		
3-4 ft. ...	1.75	16.50
4-5 ft. ...	2.00	18.50

Early Globe		
Nut large almost round. Quite early.		
3-4 ft. ...	1.75	16.50
4-5 ft. ...	2.00	18.50

HICKORY (Shagbark)		
Esteemed as the choicest of native nuts.		
2-3 ft.	1.50	
3-4 ft.	2.50	
4-5 ft.	3.50	

Spirea Bridal Wreath.

Delightful Flowering Shrubs for the Home Grounds

Our Shrubs are well established, two to three years old, well branched, well rooted. Most of our shrubs are grown expressly for landscape purposes to give immediate effect. In the following list may be found shrubs producing a great range of color and flowers. There are shrubs with green foliage, yellow foliage and red foliage. Some produce foliage that take on particularly delightful colorings in the Fall. Others produce gorgeous berries, red, white and black. Make your selection from the following list. QUALITY CONSIDERED our prices are as low as those of any other Company.

	Each	Per 10			
ARALIA SPINOSA (Hercules' Club)			BERBERRIS THUNBERGI ATROPURPUREA (Red Leaved Japanese Barberry)		
Useful for tropical effects and shadows. White flowers. July.			Similar to the green leaved Japanese Bar- berry but the foliage is of a rich, lus- trous, bronze red.		
5-6 ft.	1.50	12.50	15-18 inch, Each	Per 10	Per 100
AZALEA			2 Yr. plants...	.45	4.00 30.00
Lutea (Flame Azalea)			BUDDLEIA, Magnifica	Each	Per 10
The gayest and most brilliant flowering shrub yet known. Flowers light sulphur- yellow to deep red.			(Butterfly Bush)		
18-24 inch B-B.....	2.50	22.50	Blooms heavily in mid-summer and con- tinuing into the Fall.		
Arborescens (Sweet Azalea)			2 Yr. plants	.40	3.50
Very attractive white or faintly rose-tinted. Fragrant.			CALYCANTHUS (Sweet Shrub)		
18-24 inch B-B	2.50	22.50	An old garden favorite with fragrant dark reddish brown flowers.		
Nudiflora (Pinxter bloom).			2-3 ft.50	4.50
An extremely beautiful Azalea. Rose-pink or whitish blooms. Fragrant. Fall foliage assumes attractive shades.			3-4 ft.65	6.00
18-24 inch B-B.....	2.50	22.50	CHIONANTHUS VIRGINICA (Fringe Tree)		
BERBERRIS THUNBERGI (Thunberg's Japanese Bar- berry).			Fragrant white flowers. May-June. Blue- black, plume-like fruits follow.		
Hardy, dense, low growing shrub with spreading thorny branches. Small bright green leaves turning brilliant orange and yellow.			2-3 ft.60	5.50
			CLETHRA ALNIFOLIA (Sweet Pepper Bush)		
			Spikes of very fragrant flowers. July-Sept.		
			2-3 ft.75	6.50
			CORNUS, Amomum (Silky Dogwood)		
			Pale blue fruits, young twigs purple.		
			2-3 ft.50	4.50
			3-4 ft.60	5.50

SHRUBS, Continued

Lutea (Dogwood)	Each	Per 10
Has distinct yellow bark. Fine for winter effects.		
2-3 ft.50	4.50
Sanguinea (Dogwood)		
Purple or dark blood-red branches and greenish white flowers.		
2-3 ft.50	4.50
3-4 ft.60	5.50
Siberica (Dogwood)		
Clusters of white flowers, succeeded by ornamental berries. Stem and branches blood-red.		
2-3 ft.50	4.50
3-4 ft.60	5.50
CRATAEGUS Pauli		
(Paul's Double Scarlet Thorn)		
Double scarlet flowers.		
3-4 ft.	2.00	15.00
CYDONIA, Japonica		
(Japanese or flowering Quince)		
Scarlet flowers in April, May.		
2-3 ft.50	4.50
DEUTZIA, Gracilis (Dwarf Deutzia)		
Profuse bloomer. Pure white, May.		
15-18 inch50	4.00
Rosea		
Similar in growth to Deutzia Gracilis but has pink flowers.		
2-3 ft.50	4.50
3-4 ft.60	5.50
Pride of Rochester		
Vigorous large flower tinged pink, June.		
2-3 ft.50	4.50
3-4 ft.60	5.50
ELAEAGNUS LONGIPES		
(Cherry Elaeagnus)		
Silvery leaves. Fragrant. Yellow flowers. May. Large red berries. Ripe in July.		
2-3 ft.75	7.00

EUONYMUS, Americanus	Each	Per 10
(Strawberry bush)		
Pink fruits. Prefers moist locations.		
3-4 ft.75	6.50
Europaeus (Burning bush)		
Pink fruits on long stalks, persisting a long time.		
3-4 ft.75	6.50
FORSYTHIA, Fortunei		
Good habit, arching branches; vigorous grower. Golden yellow.		
2-3 ft.50	4.50
3-4 ft.60	5.50
Intermedia		
Bright yellow flowers in April before leaves unfold.		
2-3 ft.50	4.50
3-4 ft.60	5.50
Suspensa		
Graceful drooping habit; excellent for massing or banks.		
2-3 ft.50	4.50
3-4 ft.60	5.50
Viridissima		
Most vigorous. Has green bark and thick dark green leaves.		
2-3 ft.50	4.50
3-4 ft.60	5.50
HIBISCUS (Althea or Rose of Sharon)		
Red, white, pink, purple.		
2-3 ft.50	4.50
3-4 ft.60	5.50
HYDRANGEA, Arborescens		
(Hills of Snow)		
Large double white flower panicles; very showy. August.		
2-3 ft.50	4.50
Paniculata Grandiflora		
Very showy white flowers, later changing to pink. August.		
2-3 ft.60	5.50
3-4 ft.70	6.50
ILEX, VERTICELLATA		
(Common Winterberry)		
Small June flowers with masses of crimson fruits in October which last far into the winter. Plant in groups to insure a crop of berries.		
2-3 ft.	1.00	
KERRIA, Japonica (Globe-flower)		
Golden yellow flowers. June. Sept. Green branches.		
2-3 ft.60	5.50
KOLKWITZIA (Beauty Bush)		
A beautiful shrub. Covered in early May with mass of pink flowers.		
2-3 ft.90	8.50
LONICERA, Fragrantissima		
(Early Fragrant Honeysuckle)		
Fragrant white flowers. April-May. Half evergreen.		
2-3 ft.50	4.50
3-4 ft.60	5.50
Tartarica (Pink Tartarian Honeysuckle)		
Pink and white. Flowers and fruit freely produced.		
2-3 ft.50	4.50
3-4 ft.60	5.50

Plant more flowering Shrubs.

Proper selection of Shrubs will give continuous bloom all summer.

Tartarica Alba (White Tartarian Honeysuckle)			Cotinus (Purple fringe or Smoke tree)		
A white variety of the above. Bright red berries.			A medium sized shrub with fringe like flowers.		
2-3 ft.50	4.50	2-3 ft.60	5.50
3-4 ft.60	5.50	3-4 ft.75	6.50
Ruprechtiana (Manchurian Honeysuckle)			Typhinia (Staghorn Sumac)		
White flowers in May and June, changing to yellow.			Picturesque habit; brilliant autumn effect.		
3-4 ft.60	5.50	2-3 ft.60	5.50
PHILADELPHUS, Coronarius (Common Mock Orange)			3-4 ft.75	6.50
White fragrant flowers borne in May and June.			SAMBUCUS, Canadensis (American or Sweet Elder)		
2-3 ft.50	4.50	Handsome shrub. Flowers white, fruit purplish.		
3-4 ft.60	5.50	2-3 ft.50	4.50
Falconeri (Falconer's Mock Orange)			SPIREA, Anthony Waterer (Waterer Spirea)		
Medium sized shrub with graceful branches. Fragrant, white.			Rose-pink flowers produced all summer.		
2-3 ft.50	4.50	15-18 inch50	4.50
3-4 ft.60	5.50	18-24 inch60	5.50
Grandiflorus (Large-flowered Mock Orange)			Bumalda		
Large pure white fragrant flowers.			Light pink flower. July-Sept. A good dwarf facing shrub.		
2-3 ft.60	5.50	18-24 inch50	4.50
3-4 ft.75	7.00	Prunifolia (Bridal Wreath)		
Virginalis (Virginal Mock Orange)			White. May free flowering. Handsome dark green foliage turning orange in autumn.		
Fragrant white flowers much larger than any other variety. Blooms intermittently all summer.			2-3 ft.50	4.50
2-3 ft.60	5.50	3-4 ft.60	5.50
3-4 ft.75	7.00	Van Houttei (Van Houtte Spirea)		
RHODOTYPOS, Kerroides (White Kerria)			White. May-June. Extremely free flowering and very adaptable.		
Graceful shrub. Pure white flowers in May and June. Shiny black berries in autumn.			2-3 ft.40	3.40
2-3 ft.50	4.50	3-4 ft.45	4.00
3-4 ft.60	5.50	Froebeli (Froebel Spirea)		
RHUS, Aromatica (Fragrant Sumac)			Excellent dwarf Spirea. Very vigorous and hardy. Produces large flat heads of rosy-pink flowers. June-September.		
Clusters of small yellow flowers. April-May. Most attractive in June when covered with coral-red fruits.			2-3 ft.50	4.50
3-4 ft.	1.00	9.00	SYMPHORICARPOS, Racemosus (Snowberry)		
			Pinkish flowers, white berries.		
			2-3 ft.50	4.50
			3-4 ft.60	5.50

SHRUBS, Continued

	Each Per 10	
Vulgaris (Coral Berry or Indian Currant) Plump red fruits clustered along the branches.		
2-3 ft.50	4.50
3-4 ft.60	5.50
STEPHANANDRA, Flexuosa Graceful compact habit. Handsome foliage.		
2-3 ft.50	4.50
TAMARIX, Africana Feathery foliage and long slender racemes of pink flowers in early summer. Very striking at the edge of an evergreen border.		
3-4 ft.75	7.00
VIBURNUM, Carlesi Fragrant Viburnum. Waxey pink deliciously fragrant flowers appear in little round clusters as the leaves are unfolding.		
1½-2 ft. B-B	1.25	11.50
Cassinoides (Withe-Rod) White. June-July. Berries pink changing to dark blue. Splendid for massing and near water.		
2-3 ft.75	6.50
3-4 ft.90	8.00
Dentatum (Arrow Wood) White. May-June. Berries blue-black; autumn coloring purple and red. Thrives in wet soil.		
2-3 ft.50	4.50
Lantana (Wayfaring Tree) White flowers. May-June. Handsome dark green wrinkled leaves. Berries red changing to black.		
2-3 ft.50	4.50
3-4 ft.60	5.50
Lentago (Nannyberry) White flowers. May-June. Handsome shining leaves. Blue-black fruits. Splendid shrub for massing.		
2-3 ft.50	4.50
3-4 ft.60	5.50

	Each Per 10	
Opulus (High-bush cranberry) Very similar in habit of growth and fruit to the American Cranberry bush.		
2-3 ft.50	4.50
3-4 ft.65	6.00
Plicatum (Japanese Snowball) Showy white flowers in balls. June. Handsome foliage with purple autumn coloring.		
2-3 ft.50	4.00
3-4 ft.60	5.50
WEIGELA, Eva Rathke (Red flowering Weigela) Carmine flowers. June-August. Most floriferous.		
18-24 inch50	4.50
2-3 ft.60	5.50
Rosea (Pink Weigela) Rose-colored flowers in May.		
2-3 ft.40	3.50
3-4 ft.50	4.50

Hedge Plants

	Each Per 10	
LIGUSTRUM, Amurense (Northern Amoor River Privet) Half evergreen; very hardy.		
18-24 inch	1.35	10.00
2-3 ft.	1.75	14.00
Ibota (Ibota Privet) Spreading arching branches with clean foliage, remaining good until mid-winter. The bunches of shiny black berries are decorative.		
18-24 inch	2.50	20.00
Ovalifolium (California Privet) Most popular hedge plant. We offer good bushy 2 year stock.		
18-24 inch	1.00	6.00
2-3 ft.	1.50	12.50

Barberry Thunbergi Hedge.

Climbing and Trailing Vines

Each Per 10

AMPELOPSIS, Quinquifolia (Virginia Creeper)

Vigorous, clings to walls making quick dense shade. Leaves gorgeous in autumn, blue berries.

2 Yr.50 4.50

Tricuspidata Veitchi (Boston Ivy)

Rapid growing, clings to the smoothest surface; the deep green foliage turns crimson in autumn. Blue berries.

2 Yr.50 4.50

BIGNONIA, Radicans (Scarlet Trumpet Vine)

Deep scarlet flowers in August.

2 Yr.60 5.50

EUONYMUS, Radicans (Creeping Euonymus)

Evergreen climber; rich green foliage; fruits pink.

2 Yr.50 4.50

Radicans Vegetus (Bigleaf Winter-creeper) Evergreen Bittersweet

Bushy interesting shrub. Leaves round dull green; bright scarlet fruits, freely produced. Handsome among evergreens.

2 Yr.60 5.50

CELASTRUS SCANDENS (American Bitter-sweet)

Orange-yellow capsules that display crimson seeds. Fine on trees or lattice.

2 Yr.50 4.50

CLEMATIS, Coccinea

Graceful vine with attractive foliage and notting red flowers.

2 Yr.75 6.50

Henryi

Flowers white, large and showy.

2 Yr.75 6.50

Jackmani

Large velvety purple flowers.

2 Yr.75 6.50

Mme. Baron Veillard

One of the strongest growers of all the large flowering Clematis. Large pink blossoms produced in profusion.

2 Yr.75 6.50

Paniculata

Rapid grower, free bloomer. Fragrant white flowers.

2 Yr.40 3.50

LONICERA, Halliana (Hall's Japan Honeysuckle)

Evergreen Climber with fragrant white flowers that change to yellow.

2 Yr.50 4.50

Each Per 10

Belgica (Monthly Fragrant Honeysuckle)

Yellowish white and pale purple all summer.

2 Yr.50 4.50

Sempervirens (Scarlet Trumpet Honeysuckle)

Rich scarlet flowers all summer.

2 Yr.50 4.50

LYCIUM, Chinensis (Matrimony Vine).

Hardy pink or purple flowers and scarlet berries.

2 Yr.50 4.50

POLYGONUM, Auberti (Silver Lace Vine).

Climbing plant of vigorous growth, producing great foamy sprays of white flowers during summer and fall.

2 Yr.75 6.50

WISTERIA, Sinensis (Chinese Wisteria).

Purple May-June. Long drooping panicles.

2 Yr. 1.00 9.00

Sinensis, Alba (White Chinese Wisteria).

May-June.

2 Yr. 1.00 9.00

Wisteria.

Rhododendrons.

Evergreen Shrubs

AZALEA, Amoenæ.

Evergreen. Grows broader than tall with **good compact habit**. The small box-like leaves take on a warm bronzy hue in winter but in spring a mantle of magenta flowers is the striking feature.

12-15 inch B-B.....	1.50	12.50
15-18 inch B-B.....	2.25	17.50

Kaempferi.

From salmon-pink to orange-red, the flowers transform this shrub into a thing of beauty. In a slightly shaded spot it is almost evergreen and the color of the flowers is preserved. Has successfully withstood our worst winters.

12-15 inch	2.00	17.50
15-18 inch	2.50	22.50

Hinodigiri.

This is the red Azalea which in May is actually covered in a blanket of vivid carmine flowers.

12-15 inch spread..... 2.00

DAPHNE, Cneorum.

Grey-green foliage. Rose-pink deliciously fragrant flowers. Grows only one foot high and thrives in full sun or partial shade.

9-12 inch B-B.....	1.35	12.00
--------------------	------	-------

KALMIA, Latifolia (Mountain Laurel). Each Per 10

Evergreen. Doubtless the most valuable and beautiful of our broad-leaf evergreens. In July nothing can approach the glorious effect created by a mass of laurel with its great wealth of pink flowers. While most adaptable to sun or shade the ideal location is slight shade.

18-24 inch B-B.....	2.25	20.00
2-2½ ft. B-B.....	2.75	24.00

RHODODENDRON, Maximum.

Well known native of our Mountain regions with great clusters of white or rose-pink flowers in June and July.

2-2½ ft. B-B	4.00
2½-3 ft. B-B	5.00

Catawbiense.

Few native shrubs make such a gorgeous display as the great masses of rosy-purple flowers in May and June.

2-2½ ft. B-B	5.00
2½-3 ft. B-B	6.00

PACHYSANDRA, Terminalis (Japanese Spurge).

A low growing evergreen plant with glossy dark green foliage. Adapted for covering the ground where it is difficult to establish grass.

Hardy Glenwood Grown Ever- Blooming Roses

We regard the following list of varieties as fine as could possibly be offered by any grower. Our roses are strictly Glenwood New York State grown. All of the following varieties are everbloomers. They bloom continuously from June until frost. The plants we offer are 2 years old, they are fresh dug and delivered to you in the best possible condition and we regard them as far superior in every way to the Texas roses sold in heated

Radiance.

stores. After our roses are dug they are kept in a cool moist warehouse where there is no artificial heat whatsoever. Roses sold in stores are subject to temperatures of 70 to 80 degrees day and night which naturally causes the plants to dry out and shrivel. When you buy roses examine the bark carefully, see that it is plump. Our plants have excellent roots and will bloom the first season planted, and are the finest super-grade in the mail order trade. Purchases of this grade from our nurseries will see the benefit of our fresh, properly kept stock and the varieties we offer are as fine as you can purchase anywhere; at any price:

55c each

\$5.25 per 10

\$50.00 per 100

AMERICAN BEAUTY. Brilliant pink to red. Delightfully fragrant.

BETTY UPRICHARD. Orange carmine on outside petals. Copper red buds.

COLUMBIA. Pink deepening as it opens.

CRUSADER. Large crimson-red flowers, lighter in the center.

CHARLES K. DOUGLAS. Flaming scarlet, flesh velvety deep crimson.

GOLDEN DAWN. Deep yellow buds,

suffused with pink. Opening lemon-yellow.

GRUSS AN TEPLITZ. Bright crimson. Fragrant.

JOANNA HILL. Clear yellow. Exquisitely formed.

MRS. P. S. DUPONT. A great prize winning rose. Clear yellow with orange-yellow heart. Long lasting blooms all summer and Fall. A great beauty.

ROSES, Continued

- INDEPENDENCE DAY. Sunflower-gold, stained flame red, orange and apricot.
- KILLARNEY. Buds long and pointed, suffused pink. Lovely and distinct.
- LADY HILLINGDON. Cup-like yellow flowers.
- LOS ANGELES. Flame-pink shaded gold. Intensely fragrant.
- MME. BUTTERFLY. Pale pink and gold.
- MME. EDOUARD HERRIOT. Coral red buds, shaded yellow; flowers copper orange.
- MRS. CALVIN COOLIDGE. Bright yellow changing to deep orange.
- MARGARET McGREDY. Cupped flowers of solid, orange-vermillion.
- McGREDY SCARLET. Brilliant scarlet deep crimson. Best orange-yellow.
- MRS. SAMUEL McGREDY. A beautiful copper-scarlet orange, heavily blushed with red on the outside of petals. Delicately perfumed.

- PREMIER. Bright rose-pink. Very fragrant.
- F. R. PIERSON. Double flowers of brilliant crimson.
- PRESIDENT HOOVER. Orange and pink.
- RADIANCE. Brilliant carmine - pink with salmon pink shading.
- ROSLYN. Orange buds; full gold and yellow flowers with deeper center.
- SENSATION. Scarlet crimson.
- RED RADIANCE. A bright rosy red form of Radiance.
- SOUVENIR de CLAUDIUS PERNET. Sunflower yellow.
- SUNBURST. Bright glowing orange blooms.
- TALISMAN. Old rose pink, copper and old gold.
- MRS. CHAS. BELL. Clear shell pink without fading. This exquisite shade has never been matched in any of the new roses. Deliciously fragrant.

GLEN'S SPECIAL
LAWN GRASS SEED

We offer you in the Special Lawn mixture the last word in high grade lawn seed. It produces the heavy velvety lawn that is your great desire. This mixture is carefully inspected and kept free from weeds that are so injurious to the lawn.

You cannot have a good lawn with poor, cheap seed.

Price: 1 lb., \$.50; 5 lbs., \$2.25; 25 lbs., \$11.00; 100 lbs., \$42.50.

Climbing Roses for a place in every garden.

Deciduous Trees as Ornamentals

We have gathered at Glenwood Nurseries and Mayo Nurseries such trees as have particular ornamental value and are growing them and their varieties under conditions that promote vigor of growth and assure continued sturdiness when transplanted to a customer's grounds. Some are especially adapted for lawn planting, others for street and avenues. There are few places that will not be improved in appearance by the addition of some finely grown deciduous trees. Plant more trees around you. They will give shade, beauty, food for birds and bees and provide nesting places for birds.

ACER (Maple)	Each	Per 10		Each	Per 10
Acer Dasycarpum (Silver-leaved Maple)					
Quick growing, graceful shade tree, leaves silvery underneath.			10-12 ft.	4.00	35.00
8-10 ft.	1.50	13.50	12-14 ft.	6.00	
10-12 ft.	2.00	16.50	Betula Alba Pendula laciniata (Cut-leaved Weeping Birch)		
Acer Platanoides (Norway Maple)			Bark silvery white. Excellent tree for lawn planting. Graceful.		
The most popular street tree; retains its green leaves until late Autumn.			6-8 ft.	3.50	30.00
8-10 ft.	2.50	20.00	CATALPA		
10-12 ft.	4.00	35.00	Catalpa Bungei (Umbrella Catalpa)		
Acer Schwedleri (Schwedleri Maple)			6-8 ft. stems, 2 Yr.		
Probably the best growing large purple leaf tree. Useful as lawn specimen.			heads75	6.50
8-10 ft.	3.00	27.50	CERCIS CANADENSIS (Judas Tree or Red Bud)		
10-12 ft.	4.00	35.00	Rosy-pink. April. Very effective. Good foliage.		
Acer Rubrum (Red Maple)			4-5 ft.	2.00	
Branches spreading, red blossoms in spring before the foliage; in autumn the leaves are brilliant red and scarlet.			CORNUS (Dogwood)		
8-10 ft.	3.00	27.50	Cornus florida (White dogwood)		
10-12 ft.	5.00	45.00	Foliage turns to deep red in autumn; Scarlet berries; very showy.		
Acer Saccharum (Sugar Maple)			4-5 ft.	1.50	12.50
Most popular in northern states; best planted in spring; has rich yellow autumn coloring.			5-6 ft.	2.50	22.50
8-10 ft.	3.00	27.50	Cornus florida rubra (Red or pink flowering dogwood)		
10-12 ft.	4.50	42.50	Flowers deep pink. An unusual attraction where the white is familiar.		
AESCULUS (Horse Chestnut)			3-4 ft.	2.25	20.00
Aesculus Hippocastanum (White Flowering Horse Chestnut).			4-5 ft.	3.75	32.50
Vigorous, rapid growing tree giving dense shade, showy white flowers, dark green leaves.			FAGUS, Americana (American Beech)		
4-5 ft.	2.25	20.00	Grows slowly but a handsome native whose clean great bark trunks are familiar in light woods.		
BETULA (Birch)			5-6 ft.	5.00	
Betula Alba (European White Birch)			Riversi (Rivers Purple Beech)		
Rapid growing. Handsome silvery white bark.			The best purple-leaved tree, grafted, handsome and dignified.		
			4-5 ft.	7.50	

ORNAMENTAL TREES, Continued

	Each	Per 10
GINKGO Biloba (Maidenhair Tree) Full of interest, historically and physically. Practically insect, dust and disease proof; good for city planting. Slow grower.		
4-5 ft.	2.75	25.00
GLEDITSIA Robinia Pseudoacacia (Black Locust) Bears pendant racemes of yellowish white flowers.		
5-6 ft.	1.50	12.50
LIRIODENDRON (Tulip Tree) A quick grower. The yellow tulip-like flowers are produced in June.		
6-8 ft.	2.50	20.00
8-10 ft.	3.50	30.00
MAGNOLIA, Acuminata. Large creamy white flowers in mid-summer.		
4-5 ft.	3.00	
Soulangeana Great purplish-pink cups in early spring. A spectacular member of this glorious family.		
2-3 ft. B-B	3.50	32.50
Tripetela Large glossy leaves. Both hardy and vigorous. The giant white flowers open in June.		
4-5 ft.	3.00	
MALUS (Crab) Malus Ioensis Plena (Bechtel's Double Flowering Crab) A low bushy tree that is sturdy, hardy and blooms young. The flowers are double, delicate pink and delightfully fragrant.		
3-4 ft.	1.75	16.50
Malus Floribunda (Japanese flowering Crab) Bright pink buds and white open flowers make a pleasing contrast.		
3-4 ft.	1.50	
4-5 ft.	1.85	
Malus Niedzwetzkyana (Redvein Crab) Leaves, flowers, fruit, bark and even the wood are reddish purple, improves with age; give space to develop.		
3-4 ft.	1.75	16.50
Malus Scheideckeri Large semi-double pure pink flowers of lasting quality followed by a profusion of waxey yellow fruits over a half inch in diameter.		
3-4 ft.	1.50	
4-5 ft.	2.00	
MORUS (Mulberry) Morus Alba Tartarica (Russian Mulberry) White to violet-colored fruit greatly relished by birds.		
6-8 ft.	1.50	12.50
8-10 ft.	2.50	22.50
Morus Alba Tartarica Pendula (Teas Weeping Mulberry) Fine weeping tree. Foliage is glossy; fruit reddish purple.		
2 yr. heads, 4 ft. stems	3.00	
PLATANUS (Plane) Platanus Orientalis (Oriental Plane) A good tree for park and street use. Grows rather rapidly.		
8-10 ft.	3.00	27.50

	Each	Per 10
POPULUS (Poplar) Poplar Deltoides Carolinensis (Carolina Poplar) A rapid grower. Succeeds even in dry places and near seashore.		
8-10 ft.	1.00	7.50
10-12 ft.	1.50	12.50
Poplar Nigra Italica (Lombardy Poplar) Tall spiral-like character. Valued for landscape work. Ours are low branched, Italian style.		
6-8 ft.85	7.00
8-10 ft.	1.00	7.50
PRUNUS (Flowering Almond, Cherry, Plum, Peach) The species below are charming on account of their habit of growth and profuse bloom.		
Prunus Glandulosa (Flowering Almond) Low growing, bushy, double white and rose colored flowers.		
3-4 ft.	1.25	11.00

Lombardy Poplar.

ORNAMENTAL TREES, Continued

PRUNUS, Continued

Prunus Yoshina (Pink flowering Cherry)	Each Per 10	
The single pink flowers become flushed with purple before falling. An excellent shade tree. More than 300 Yoshina Cherry are planted around the Tidal Basin in Washington, D. C.		
4-5 ft.	2.25	19.00
Prunus Persica Plena (Double flowering Peach)		
A vision of loveliness not equalled by anything else that blooms at the same time. The profusion of bloom is amazing.		
4-5 ft.	1.50	12.50
Prunus Triloba Plena (Double flowering Plum)		
Small tree with slender branches literally covered with double rosy flowers in early summer.		
3-4 ft.	1.50	12.50
Prunus Cerasifera Pissardi (Purple-leaved Plum)		
Dark crimson foliage changing to purple as it matures.		
4-5 ft.	1.00	9.00
5-6 ft.	1.50	12.50
6-8 ft.	2.50	20.00

QUERCUS (Oak)

Quercus Alba (White Oak)	
Of tremendous spread, rugged, slow in growth but a permanent fixture.	
6-8 ft.	3.75
Quercus Cocinnea (Scarlet Oak)	
The brilliant scarlet of late Autumn is characteristic of this handsome round top tree.	
8-10 ft.	4.50
Quercus Palustris (Pin Oak)	
Rapid growing, pyramidal tree. Foliage lobed. Bright green foliage, dark-red in autumn.	
6-8 ft.	3.75
Quercus Rubra (Red Oak)	
Rich autumn coloring in greens and reds.	
8-10 ft.	4.00

SALIX, (Willow)	Each Per 10	
Salix Babylonica (Common Weeping Willow)		

Familiar in cemeteries and along water.		
6-8 ft.	1.75	15.00
8-10 ft.	2.50	22.50
ix Vitelliana aurea (Golden Willow)		
Light green leaves and golden yellow branches.		
6-8 ft.	1.00	
8-10 ft.	1.50	
10-12 ft.	2.50	

SALIX DISCOLOR (New French Pussy Willow)		
---	--	--

Buds and blooms very large, from one to 2 inches long. Fragrant.		
4-5 ft.	1.00	9.00

SORBUS (Mountain Ash)		
Sorbus Aucuparis (European Mountain Ash)		

A valuable tree on a small lawn; the scarlet berries are quite striking.		
6-8 ft.	2.75	25.00
8-9 ft.	3.50	30.00

TILIA (Linden)		
Tilia Americana (American Linden)		
Grows rather quickly forming an open head. Has fragrant yellow flowers.		
8-10 ft.	2.75	25.00

ULMUS (Elm)			
Ulmus Americana (American Elm)			
Stateliness and dignity are here exemplified.			
Fairly rapid in growth. Beautiful in summer and winter.			
8-10 ft.	2.50	22.50	
10-12 ft.	3.50	31.50	

Ulmus Pumila (Chinese Elm)		
We offer the hardy North China strain only. Detailed description, see page 6.		

	Each	Per 10	Per 100
4-5 ft.	1.00	8.75	75.00
5-6 ft.	1.50	13.75	125.00
6-7 ft.	2.00	17.50	150.00
8-10 ft.	2.50	22.50	200.00
10-12 ft.	3.75	35.00	325.00

This lawn would be a dreary place indeed without these beautiful ornamental trees.

Cone Bearers or Evergreens

A planting that depends entirely upon deciduous trees for ornamental effects is sure to have a bleak appearance during the winter months. Our evergreens have been transplanted, they are amply spaced in the nursery and lifted with a solid ball of dirt which insures success in transplanting. All evergreens are carefully packed for shipping, each layer or tier when packed in the box is securely cleated to prevent the plants from shifting in transit. We guarantee safe delivery of all evergreens purchased from us. Price includes balling and burlapping roots.

ABIES (Fir)	Each
Abies Balsamea (Balsam Fir)	
A rapid growing tree 50 to 80 ft. high with dark green spicv foliage. Hardy.	
2-3 ft. B-B	2.50
3-4 ft. B-B	3.75
Abies Concolor (White Fir)	
Graceful form, handsome foliage; glinting blue and silver.	
2-3 ft. B-B	3.00
3-4 ft. B-B	5.00

JUNIPERUS	
Jun. Pfitzeriana (Pfitzer Juniper)	
Spreading graceful habit with silvery green color.	
18-24 inch B-B	3.50
2-3 ft. B-B	4.50
Jun. Hibernica (Irish Juniper)	
Branches upright, densely covered with dark green foliage.	
2-3 ft. B-B.....	3.00
3-4 ft. B-B.....	4.00
Jun. Horizontalis (Trailing Juniper)	
Handsome ground covering type. Color fresh grey-green.	
18-24 inch B-B.....	2.00
2-3 ft. B-B.....	3.00
Jun. Sabina (Savins Juniper)	
Low, bushy, spreading with dense dark green foliage.	
15-18 inch B-B.....	2.50
18-24 inch B-B.....	3.50
Jun. Tamariscifolia (Tamarix Juniper)	
Trailing. Foliage bright green, bronze in winter.	
15-18 inch B-B.....	3.00
Jun. Virginiana (Red Cedar)	
Tall native tree of great beauty, hardiness and handsome appearance.	
2-3 ft.	3.00
3-4 ft.	4.00

THUYA (Arborvitae)	
Thuya Occidentalis (American Arborvitae)	
Evergreen. Slender pyramid with broad vase. Bronzv winter coloring.	
2-3 ft. B-B.....	2.00
3-4 ft. B-B.....	2.50
4-5 ft. B-B.....	3.50
Thuya Occidentalis Globosa (Globe Arborvitae)	
Globular in form and of low dense growth. Beautiful light green.	
18-24 inch B-B.....	2.00
24-30 inch B-B.....	2.75
2½-3 ft. B-B.....	3.50
Thuya Occidentalis Hoveyi (Hovey's Golden Arborvitae)	
A compact growing variety of distinct coni-	

Evergreens are indispensable in planning your planting.

	Each
cal shape; light golden green.	
2-2½ ft. B-B.....	3.00
2½-3 ft. B-B.....	4.00
Thuya Occidentalis Pyramidalis (Pyramidal Arborvitae)	
Splendid for formal planting. Retains bright green color throughout winter.	
2-3 ft. B-B.....	2.50
3-4 ft. B-B.....	3.00
4-5 ft. B-B.....	4.50
Thuya Occidentalis (Tom Thumb Arborvitae)	
Fine low-growing form of slow symmetrical growth. Hardy.	
18-24 inch B-B.....	2.00
2-3 ft. B-B.....	3.00
Thuya Occidentalis Wareana (Siberian Arborvitae)	
Broad pyramidal in shape of slow dense-growth with stout branches and bluish green foliage.	
18-24 inch B-B	2.25
2-3 ft. B-B.....	3.00
3-4 ft. B-B.....	3.75
PICEA, Spruce	
Picea Canadensis Albertiana (Black Hills Spruce)	
A hardy variety of the well-known white Spruce. Dark foliage.	
2-3 ft. B-B.....	2.50
3-4 ft. B-B.....	3.50

EVERGREENS, Continued

Picea Pungens (Colorado Green Spruce)	
Exactly like Colorado Blue except that the foliage is green.	
3-4 ft. B-B.....	4.50
4-5 ft. B-B.....	6.00
Picea Pungens Glauca (Colorado Blue Spruce)	
Its regular pyramidal shape and beautiful silvery blue foliage are exceptionally ornamental.	
2-3 ft. B-B.....	4.00
3-4 ft. B-B.....	5.25
4-5 ft. B-B.....	7.50
Picea Excelsa (Norway Spruce)	
Dark green foliage and grows rapidly. Makes a fine windbreak.	
2-3 ft. B-B.....	2.00
3-4 ft. B-B.....	2.75
4-5 ft. B-B.....	4.00
PSEUDOTSUGA, Douglassi (Douglas Fir)	
Handsome and symmetrical. Foliage grey-green with soft pleasing texture.	
2-3 ft. B-B.....	3.00
3-4 ft. B-B.....	4.00
PINUS, Pine	
Pinus, Nigra (Austrian Pine)	
Robust grower, very dark green. Does especially well at the seashore.	
2-3 ft. B-B.....	2.75
3-4 ft. B-B.....	4.00
Pinus Montana Mughus (Mugho Pine)	
Most conspicuous in spring when the erect candles of new growth decorate the top of the low flat cushion-like bush.	
15-18 inch B-B.....	2.50
18-24 inch B-B.....	3.25
RETINOSPORA (Chamaecyparis or Cypress)	
Ret. Filifera (Thread Cypress)	
The branches are thread-like and droop	

gracefully; foliage bright green.	
18-24 inch B-B.....	2.00
2-3 ft. B-B.....	2.50
3-4 ft. B-B.....	3.50
Ret. Plumosa (Plume Cypress)	
Evergreen. Forms a dense cone of fine texture. Useful for shearing into formal shapes.	
18-24 inch B-B.....	2.00
2-3 ft. B-B.....	2.50
3-4 ft. B-B.....	3.50
Ret. Squarrosa	
Silvery blue, feathery foliage. May be kept at any height by pruning.	
2-3 ft. B-B.....	2.50
3-4 ft. B-B.....	3.50
TAXUS (Yew)	
Taxus Canadensis (Canadian Yew)	
Dark green beautiful tree, the rich coloring being retained all winter.	
18-24 inch B-B.....	2.50
2-3 ft. B-B.....	3.25
Taxus Capitata (Upright Yew)	
Handsome well filled pyramids so effectively used in formal gardens or as lawn specimens.	
18-24 inch B-B.....	3.00
2-3 ft. B-B.....	4.00
Taxus Cuspidata (Japanese Yew)	
Splendid vigorous tree. The dark green leaves are often bejewelled with brilliant crimson fruits in autumn.	
15-18 inch B-B.....	2.25
TSUGA, CANADENSIS (Canadian Hemlock)	
Beautiful free drooping tree but may be used as a tall hedge, dark green, the rich coloring being retained all winter.	
18-24 inch B-B.....	1.75
2-2½ ft. B-B.....	2.50
2½-3 ft. B-B.....	3.00
3-3½ ft. B-B.....	4.00

A few acres of evergreens at Glenwood Nursery.
50,000 plants to choose from.

Plant perennials, making your garden a riot of color from June until frost.

Hardy Herbaceous Perennials

A careful selection of this list will give you a riot of color from early Spring until late Autumn. Perennials are planted permanently and each succeeding year adds to the vigor of the plant and new flowers will appear each year with greater strength and beauty.

Approximate height variety attains is given after the name.

Prices of all Perennial Plants except where otherwise noted: 3 for 75c; \$2.25 per 10; \$20.00 per 100.

ACHILLEA

BOULE de NEIGIE, white, 12-15 in. June.

AJUGA

REPTANS, blue 3-4 in. Rock plant. May-June.

ALYSSUM

SAXATILE COMPACTUM, yellow 9-12". Rock plant. Spring.

ANCHUSA

ITALICA DROPMORE, blue 3-4 ft. Spring.
MYOSORIDIFLORA, blue 12-18". Rock plant. April-May.

ANEMONE

JAPONICA ALBA, white, 2-3 ft. Sept.-Oct.
JAPONICA, QUEEN CHARLOTTE, pink 2-3 ft. Sept.-Oct.

AQUILEGIA

MRS. SCOTT ELLIOTT HYBRIDS, all shades, 2-3 ft.

ARABIS

ALPINE, white, 8 in. Rock plant. Spring.

AMERIA

LAUCHEANA, rosy-red, 3-6 in. Rock plant. May-June.

ARENARIA

MONTANA, white, 8-10 in. Spring.

CAMPANULA

MEDIUM, blue-white, rose.
CARPATICA, blue-white, 3 in. Rock plant. June-Sept.

CENTUREA

DEALBATA, rose-pink. June-July.
MONTANA, violet-blue. 2 ft. July-Sept.

CHRYSANTHEMUMS

(For descriptions see page 3)

COREOPSIS

LANCEOLATA GRANDIFLORA, yellow, 2 ft. All summer.

DELPHINIUM

BELLADONNA, turquoise-blue. 3 ft. June-Sept.
BELLAMOSUM, light blue, 3 ft. June-Sept.

DIANTHUS

BARBATUS, mixed colors, 2 ft. May-June.

DICTAMNUS

FRAXINELLA ALBA, white, 2½ ft. June-July.

Price: 3 for 90c, \$2.50 per 10.

FRAXINELLA RUBRA, rose-pink. 2½ ft. June-July.

Price: 3 for 90c, \$2.50 per 10.

DICENTRA

SPECTABILIS. (Bleeding Heart), pink, 18-24 in. May or June.

Price: 40c each, 3 for \$1.00

DIGITALIS

GLOXINAEFLORA, mixed colors, 3-4 ft. June-July.

FUNKIA

SUBCORDATA GRANDIFLORA, white 1½ ft. Aug.

GAILLARDIA

GRANDIFLORA, orange and gold. 18 in. All summer.

GYPSOPHILA

BRISTOL FAIRY, white, 18-24 in. July-Aug.

HELIOPSIS

SCABRA. Chrome yellow. 3 ft. July-Sept.

HEMEROCALLIS

FLAVA. Clear yellow, 2½ ft. June.

PERENNIALS, Continued

HEUCHERA

ROSEMONDI, coral-pink. 12-18 in. Rock plant. May-July.

HOLLYHOCKS

In variety, mixed colors. 4-5 ft. July-Aug.

IBERIA

SEMPERVIRENS, white, 6-8 in. Rock plant. May-June.

IRIS, Germanica (GERMAN IRIS)

AGNES. S. White F. White traced lilac. 2-3 ft.

GERTRUDE. S and F. Beautiful blue. 2-3 ft.

CAPRICE. S. Rosy-red, F. Bright crimson. 2-3 ft.

HER MAJESTY. S. rose-pink, F. rich maroon. 2-3 ft.

INNOCENSA. Ivory white. 2-3 ft.

IRIS KING. S. Clear yellow; F. rich maroon. 2-3 ft.

KHEDIVE. Soft lavender. 2-3 ft.

LORELY. S. Light yellow, F. blue bordered cream. 2-3 ft.

MARY GARDEN. S. pale yellow, F. creamy white. 2-3 ft.

MRS. H. DARWIN. S. pale white, F. violet at base. 2-3 ft.

IRIS Kaempferi (JAPANESE IRIS)

BEAUTY. Lavender, yellow and white. 2-3 ft.

DATE-DUGO. Single, dark rich crimson. 2-3 ft.

FAIRY. Dark purple, early. 2-3 ft.

KAN. Double violet, pink center. 2-3 ft.

KICHI-COHUO. Single pure white. 2-3 ft.

OSHO-KUM. Double rich blue. 2-3 ft.

PARAGON. White, very large and fine. 2-3 ft.

ROYAL ROSE. Rose edged white. 2-3 ft.

SHI-CHU-HA. Double, white with red edges. 2-3 ft.

SHIKAI-NAMI. Double beautiful pale blue. 2-3 ft.

Price: 3 for \$1.00; \$3.00 per 10.

LAVENDULA

VERA. Sweet lavender. 18 in. July-Aug.

LIATRIS

PYCNOSTACHYA. Purple. 3-4 ft. Aug.

LUPINUS

POLYPHYLLUS. Blue, white rose. 3 ft. June-Sept.

LYCHNIS

VISCARA SPLENDENS. Brilliant red. 12 in. Rock plant. June-July.

MONARDA

DIDYMA. Brilliant crimson. 2½ ft. June-Aug.

PLATYCODON

GRANDIFLORUS. Blue and white. 2½ ft. June-Aug.

PHYSOSTEGIA

VIVID. Violet-mauve. 18 in. Rock plant. Sept.-Oct.

PAPOVER

ORIENTALIS. Orange - crimson. 3 ft. May-June.

PEONIES

(For description, see page 8)

PHLOX

SUBULATA ALBA. White. 2 in. Rock plant. May.

SUBULATA ROSEA. Rose - pink. Rock plant. 2 in. May.

BRIDESMAID. Pure white crimson eye. 2-3 ft. July-Aug.

JULES SANDEAU. Pure pink. 2-3 ft. July-Aug.

ENCHANTRESS. Salmon-pink. 2-3 ft. July-Aug.

MISS LINGARD. Pearly white, delicate pink eye. 2-3 ft. July-Aug.

AFRICA. Brilliant red. 2-3 ft. July-Aug.

CAROLINE VANDENBERG. Blue, 2-3 ft. July-Aug.

MRS. WILLIAM JENKINS. Pure white. 2-3 ft. July-Aug.

PRIMULA

POLYANTHUS HYBRIDS. White, crimson yellow. 6 in. Rock plant. Early Spring.

PYRETHRUM

HYBRIDUM. White, pink, rose. 2-2½ ft. May-June.

RUDBECKIA

PURPUREA. Reddish purple. 2-3 ft. Aug.

SALVIA

AZUREA GRANDIFLORA. Sky blue. 3-4 ft. Aug.

*German Iris.**Their orchid-like beauty is very striking.*

Grow Your Own Fruit—Plant These Super-Size Fruit Trees

Trees Fully Four Years
Old, Seven to Nine Feet
Tall, Beautifully Root-
ed, Handsomely
Branched.

**\$1.75 each, \$16.50 per
10, \$150.00 per 100**

For those of our customers who desire trees of larger size than are usually sold by nurserymen and desire quick results, we have grown a few thousand of these handsome specimens. It takes work, time and money to produce them and we have spared neither. Inquiries for these older and larger trees are becoming more numerous each year. These inquiries make it evident that many people prefer older and larger trees for quicker results. Hence to supply this increasing demand, we are now growing a much larger stock of **BIG BUSTER SIZE FRUIT TREES** than formerly.

Varieties of Big Buster Size Fruit Trees

LUSCIOUS APPLES FOR "APPLE JELL"

RED ASTRACHAN—Large, deep crimson, juicy. August.

YELLOW TRANSPARENT—Medium size, pale yellow, good. July and August.

FAMEUSE (Snow)—Medium size, bright red, flesh white, juicy. October.

TWENTY-OUNCE (Cayuga Red Streak)—Very large, yellow splashed with red. October.

BALDWIN—Large, deep red, crisp and juicy. vigorous grower, heavy bearer. November to March.

DELICIOUS—Ranks high as a variety for commercial or home orchards. Large, brilliant dark red, flesh fine-grained crisp, juicy. November to February.

McINTOSH—Large, deep red flesh, crisp, tender, juicy. October to December.

NORTHERN SPY—Large, bright red, spread with delicate bloom, flesh tender, rich, delicious. November to March.

RHODE ISLAND GREENING—Large greenish yellow, flesh tender. December to April.

WEALTHY—Medium to large, deep red, juicy. October to January.

SWEET CHERRIES

DIKEMAN—Large, black.

GOVERNOR WOOD—Large, light yellow, shaded and mottled with light red.

LAMBERT—Very large, dark purplish red, turning to almost jet black when full ripe.

ROYAL ANN—Very large, pale yellow, spotted and shaded with deep red.

BLACK TARTARIAN—Very large, black, tender.

A four year Apple tree in actual bearing.

JUICY PLUMS

BRADSHAW—Very large, dark violet-red.

GERMAN PRUNE—Large, oval, dark purple.

YELLOW GAGE—Large oval, golden yellow, slightly clouded, flesh deep yellow, rich sugary, melting.

LOMBARD—Medium size, violet-red.

OCTOBER PURPLE—Large, round, purple.

RED JUNE—Professor Bailey says: "By all odds the best Japanese Plum." Large, brilliant, red.

SUGARY PEARS

BARTLETT—Large, waxen yellow with red blush, buttery, very juicy and high-flavored.

ANJOU (Buerre d'Anjou)—Large, handsome, greenish yellow, with a dull red cheek on the exposed side, flesh fine grained.

CLAPP'S FAVORITE—Very large, yellowish green to full yellow, rich.

ANGOULEME—Large, greenish, yellow, splashed with russett, a good bearer.

SECKEL—Small but handsome and delicious, very juicy.

Plant a few Nut trees around your home.

Bearing Filbert Trees, Grown from Layers

Northern New York grown, withstanding the toughest winter in this section (1933-34), with temperatures at times of 20 or more below zero, yet these trees suffered no winter injury and bore an abundance of nuts the following season. These trees were actually loaded with nuts last Fall and these are the trees we are digging and shipping this season. 1600 pounds of delicious nuts have been harvested from less than 3 acres planted with these improved varieties of European Filberts grown at Rochester, N. Y. Plant some of these hardy trees this season. Order now. Set the trees 18 ft. apart. An acre would require 135 trees. They also make a delightful ornamental and are frequently used in shrub borders. We offer the following varieties of bearing trees:

✓ **ZELLER MINNA**—Nuts good size. Of value for pollination. Heavy producer of pollen, and productive.

✓ **ZELLER BUTTNER**—Nuts small, very productive. Mature early. Good pollinizers.

EARLY GLOBE—Nut medium size. Good quality.

KENTISH COB—One of the best. Nut long, very rich flavor, very good.

LARGE GLOBE—Roundish nut, good size. Good grower, productive.

ITALIAN RED—A long nut adapted to the South.

MEDIUM LONG—Very desirable, long nut. Good size.

Size—3-4 ft., \$1.75 each; \$16.50 per 10; \$150.00 per 100

Size—4-5 ft., \$2.00 each; \$18.50 per 10; \$175.00 per 100

These Older and Larger Dwarf Apple Trees

Planted This Season Should Bear Fruit Next Fall Because Every Tree Is a Bearing Tree

These are older Dwarf Apple Trees than are usually offered by Nurserymen. We guarantee these trees to be four to five years old and every tree to have borne fruit. These trees were budded on improved French stock received from France several years ago. During the past two years they have been standing in the nursery they have produced fruit each Fall. If you have had difficulty in obtaining Dwarf Apple trees, we can supply you. Make selection from the following list of varieties:

WEALTHY—Standard commercial late summer and fall apple. Skin red, tree medium size. Bears early and is apt to overbear. Excellent as a dwarf and for home use.

LOBO—McIntosh seedling from Canada. Larger and better colored than McIntosh. Does not drop. Productive, good quality. Dessert and general use. Season October to March.

R. I. GREENING—Large greenish-yellow. Flesh tender. December to April.

MELBA—Not as highly colored as Early McIntosh but has larger fruit. Same season. Seedling of McIntosh. Tree upright grower. Dessert apple, makes excellent sauce.

SPITZENBURG—Excellent dessert apple and valuable for fancy mince meat and other culinary uses. Excellent for home gardens. Season November to May.

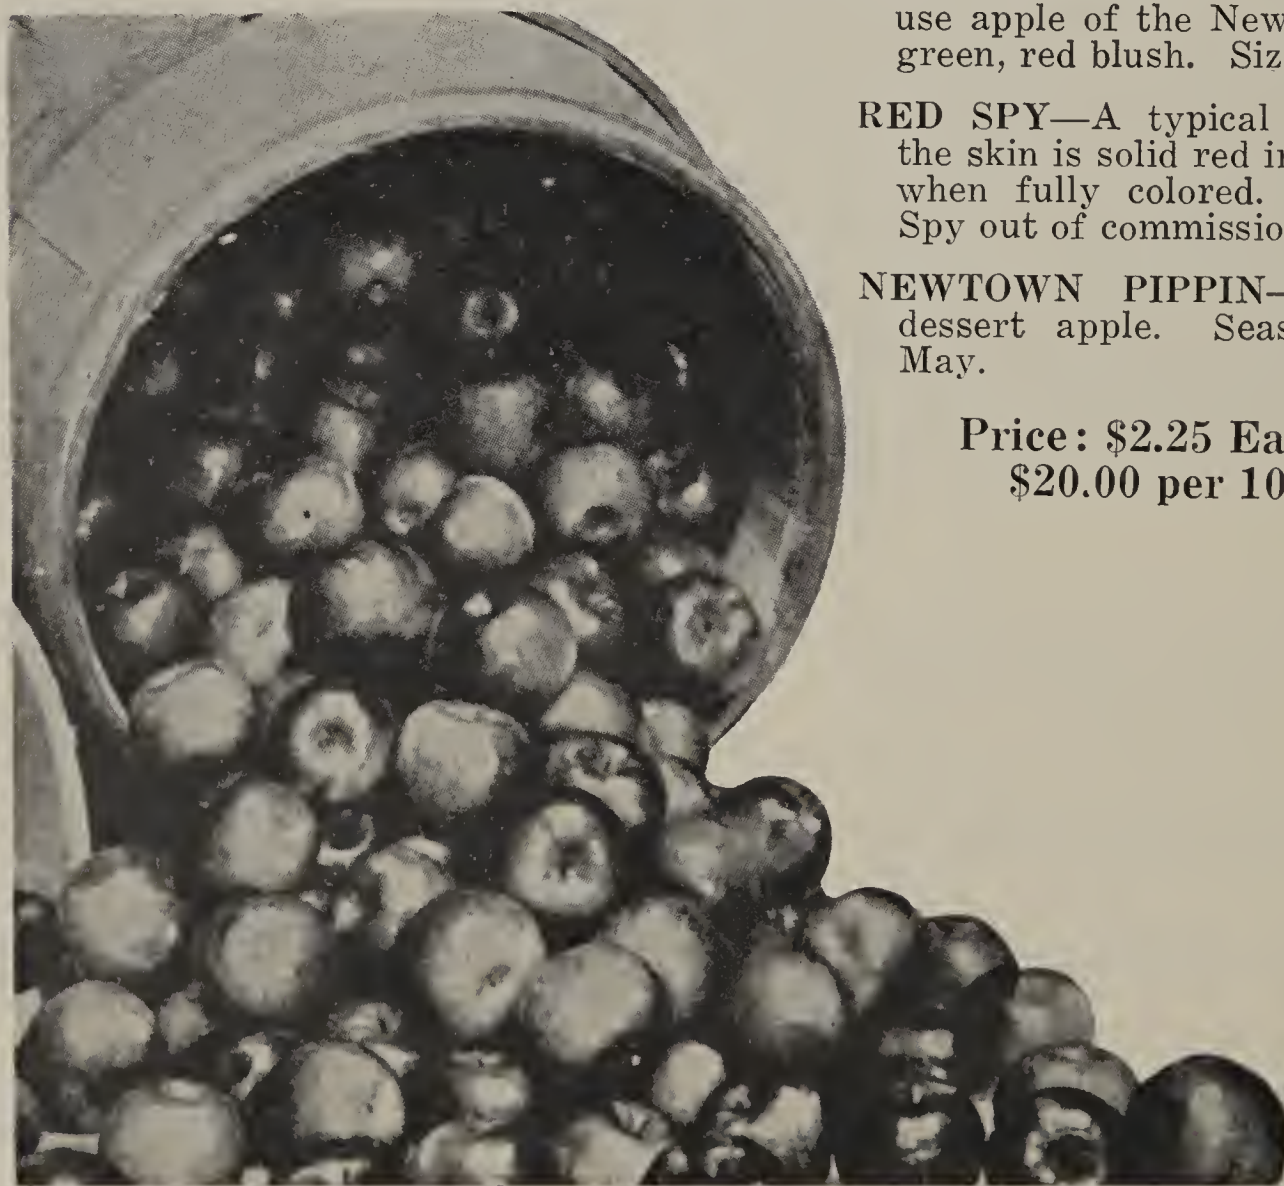

BALDWIN—Large deep red, crisp and juicy. Heavy bearer. November to March.

WESTCHESTER—An excellent home use apple of the Newtown class. Skin green, red blush. Size medium.

RED SPY—A typical Spy except that the skin is solid red instead of splashed when fully colored. It puts the old Spy out of commission.

NEWTOWN PIPPIN—Standard green dessert apple. Season December to May.

Price: \$2.25 Each
\$20.00 per 10

*All of these Dwarf Apples are in bearing
and have produced fruit.*

Boysenberry, actual size.

TRUE TO NAME

Our Boysenberry plants are absolutely guaranteed to be true to name. There is not the slightest chance to find among them anything but a No. 1 plant because they have been carefully grown from original stock and carefully separated from all other stock.

IMMENSE SIZE

It will take from 120 to 160 young berries or 200 or more blackberries to fill a pint basket. 60 to 80 Boysenberries will do it. In California the Boysenberry has produced 13,000 pounds to the acre.

VERY SWEET

If the Boysenberry is permitted to remain on the vine until it is fully ripe it is much sweeter than any other vineberry. When eating fresh, no sugar is necessary because it has a very high sugar content.

USES

No vineberry can compare with its delicious flavor when it is made into jelly, jam, marmalade, or canned. In addition to this, it makes a most excellent fountain drink by adding four times water and a little sugar. Those ice cream makers who have tried it in sherbet immediately found it to be the very best seller.

IMMENSE PRODUCTION AND PROFIT

Ted Moss, Mentone, Calif., has made affidavit that he set out 100 Boysenberry plants the spring of 1935 and made from this planting \$311.10 by June 30, 1936. 100 plants will set out 1/10th of an acre. Therefore, this was at the rate of \$3,111 per acre.

Immense New Boysenberry

ORIGIN

The Boysenberry was developed from three blackberries of unknown origin, Cuthbert raspberry, and loganberry. All of these berries are hardy and while we have only had the Boysenberry for two winters, our experiments have indicated that it is just as hardy as its parents.

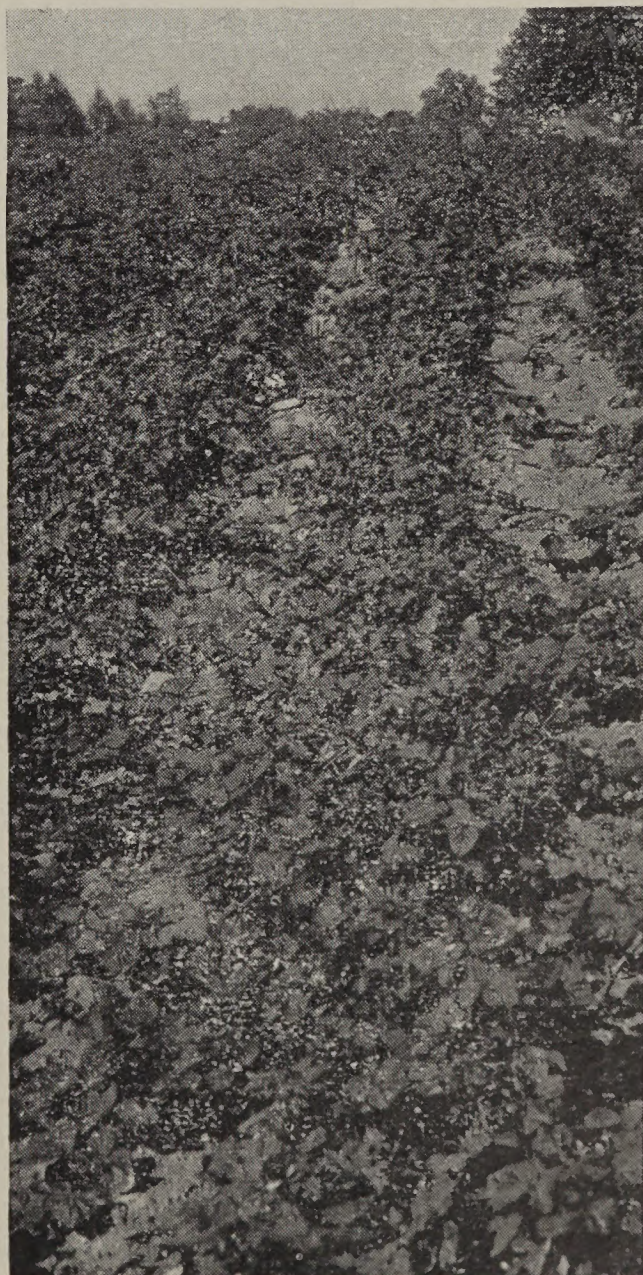

COLD SECTIONS

Boysenberries have been exposed to 17 degrees below zero the past winter and were not killed, while other brambles around them were completely frozen. See The Country Gentleman article, page 39, August number "The Boysenberry Proves Hardy."

2 YEAR TRANSPLANTS		ONE YEAR TIP PLANTS	
\$ 2.50 per	10	\$ 1.50 per	10
20.00 per	100	12.50 per	100
150.00 per	1000	100.00 per	1000

DELICIOUS FLAVOR

The Boysenberry has a distinctive flavor, altogether different from any known berry. Fifty-two ladies questioned on one day, after tasting it, said that its flavor was somewhat suggestive of the raspberry.

A field of Glenwood grown Boysenberry.

Big Juicy Bearing Grape Vines

Every Vine 3 Years Old and a Bearing Plant

Grape Vines that have had three full growing seasons. Vines that are guaranteed to be three years old and have borne fruit. These beautiful plants with roots that have had three entire years growth at only—

50c Each \$4.50 per 10
\$40.00 per 100

CATAWBA (Red)—Bunches large and loose. Berries large of coppery red color, becoming purplish when well ripened. Vinous, rich.

CAMPBELL'S EARLY (Black)—Berries large and handsome, nearly round, black with light purple bloom. Flesh tender, quality rich, sweet. Vigorous grower.

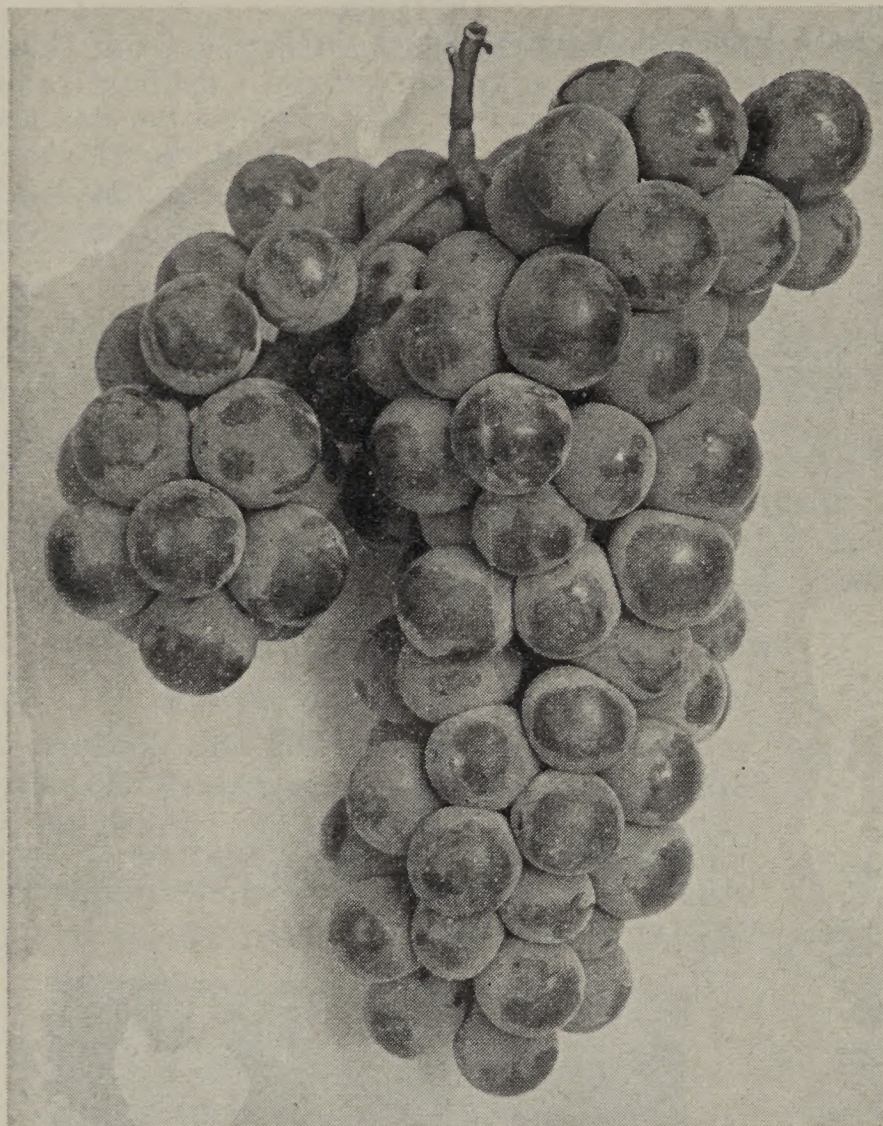

BRIGHTON (Red)—Flesh rich, sweet and of the best quality, equal if not superior to Delaware, ripens early. Productive and vigorous.

NIAGARA (White)—Bunches medium to large. Berry large, roundish, uniform skin thin but tough, pale green changing to pale yellow with thin whitish bloom. Tender, sweet; ripens with the Concord.

WORDEN (Black)—Bunches large and handsome; berries larger than Concord and superior to that variety in flavor, vine healthy and hardy. A seedling of Concord, ripening a few days earlier.

CHAMPAGNE (Red)—Very large, immense bearer, tender, juicy sweet with a rich aromatic flavor. Its keeping qualities are superior. Fine for eating fresh or wine. A sterling variety.

CONCORD (Black)—Large and handsome, very hardy, productive and reliable. One of the most popular market grapes, succeeding well over a great extent of country.

Large bunches of delicious Grapes from your own vine.

IVES (Black)—Bunch extremely large, shouldered, handsome. Berry large, tender, juicy, rich sweet without pulp. Vigorous, healthy.

LUCILE (Red)—Bunches very large and compact. Berries large, rich dark red, pulp sweet, delicious. Extremely hardy. Tremendous crop.

DELAWARE (Red)—One of the finest of our native grapes. Ripens early. Branches small and compact. Ripens red with a violet bloom, Sweet, sugary and vinous with a musky aroma.

Asparagus That Melts in Your Mouth

Fresh Out of Your Garden—
Its Name "MARY WASHINGTON"

We offer some extra large, extra strong, 2 year plants of PEDIGREED MARY WASHINGTON, the only variety we regard as worth planting. The best high producing tender green Asparagus for market and home use.

100 of These Big 2 Year Old Plants, \$2.00; 1,000 Plants for \$17.50

Two years ago we planted the Pedigreed seed on some of the richest land in our nursery—for two years we have cared and cultivated and even cut large tender stalks of delicious Asparagus for our own tables—**THESE ARE THE PLANTS WE OFFER YOU.**

FOR A QUICK CUTTING BED—Plant these fine, 2-year old extra selected roots.

There is no variety of Asparagus as good as the Washington and no strain of the Washington near as good as the "Mary."

Mary Washington Asparagus.
